

## **LETTER OF RECOMMENDATION**

Date : 12-03-2023

I am drafting this letter of recommendation for Mr. Sai Krishna Booja with immense pleasure to recommend his name for admission in your university. He is an extremely dedicated and hardworking individual and I had the pleasure of teaching him Cognitive Systems subject under Artificial Intelligence and Machine Learning Department, Vellore Institute of Technology, Chennai.

I have taught him several modules throughout the duration of the course. He has been an exceptional student with a technical mind, and the zeal to learn new things. His passion for the field of computer science made him opt for a specialization in Artificial Intelligence and Machine Learning. His approach towards academics justified his choice and proved the accuracy of his decision. I have seen him work diligently towards achieving all his goals right from the time he was a student in my class till the time he completed his final year project. His performance outshined that of all his classmates.

I have been intrigued to observe him do incredibly well in academics with a keen focus on precision and perfection. He has been able to stand up to the expectations with his incredible work/learning ethics. He can submit work on time and meet deadlines. Moreover, he has become confident over the years and actively participates in group discussions. He is one of the most determined and hardworking learners I have ever had the pleasure of having in my class. He has been consistent in his efforts to excel in whatever he does and has displayed great talent in his field.

Mr. Sai Krishna Booja is not just good at academics but has emerged as an all-rounder, with a flair for co-curricular activities as well. He was elected as the Captain of the Cricket Team, and was also an active member of VIT Teach club. He is also a favorite among other students by virtue of skills like leadership and teamwork. His outlook towards life is extremely positive and he is always open to new challenges. He has always desired to do multiple courses and this was evident from his unparalleled knowledge about the field in class discussions. I earnestly urge you to consider Mr. Sai Krishna Booja's application for admission to your distinguished university. He is unique and is highly deserving of a spot at your university. I wish him best of luck and success in his future endeavors.

Regards,

Dr. Raffi V  
Assistant Professor (Sr.)  
School of Computer Science and Engineering,  
Vellore Institute of Technology, Chennai.
